RE: Perspective Sponsor

Welcome to the TAAHM camp season! TAAHM STEM & Flight Training Summer Camp Program was founded on the belief that kids are naturally idealistic, compassionate and that they instinctively want to learn new things if given the opportunity. Engaging students in math, science, engineering and technology is one of the most important factors in creating tomorrow's workforce. We strive to inspire young people to be science and technology leaders; by engaging them in exciting mentor-based programs that build science, engineering, and technology skills. These skills in return will inspire innovation and foster well-rounded life capabilities, including self-confidence, communication, and leadership.

TAAHM STEM & Flight Training Summer Camp Program is guided by a volunteer Board of Directors and dedicated local business owners. We do not receive any governmental or grant assistance. Our primary and limited revenue sources are paid by families and donations received from generous individuals and businesses. Since these funds do not cover the entire operating expenses, families often must raise their own funds to pay for their child. The average cost per student to participate in the 4-week program is \$250, which is particularly difficult for families with more than one child and/or modest means.

This year, for the first time, we're offering an opportunity to local businesses like yours to become Program Sponsors. Your contributions will be targeted exclusively to lower the costs for a child to attend camp this summer. In order to continue to make this rewarding experience a reality for our youth, we are reaching out directly to area businesses, family, and friends for support.

While any sponsorship level you select will be greatly appreciated, with a donation of \$500 or more, you will receive the Titanium Sponsor Package, which includes all five sponsor levels.

I have attached a fact sheet about TAAHM STEM & Flight Training Summer Camp, and a description of the sponsorship opportunities. In addition to the opportunities associated with the individual sponsorship levels, sponsors will enjoy benefits, recognition, and goodwill in the local community.

I look forward to your support in making TAAHM STEM & Flight Training Summer Camp a smashing success for the last 3 years! Thank you for your consideration.

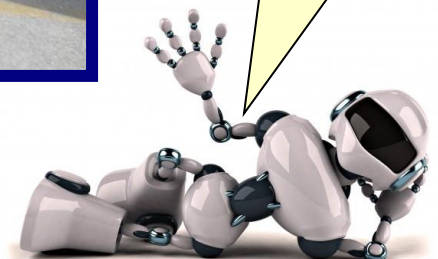

Respectfully yours,

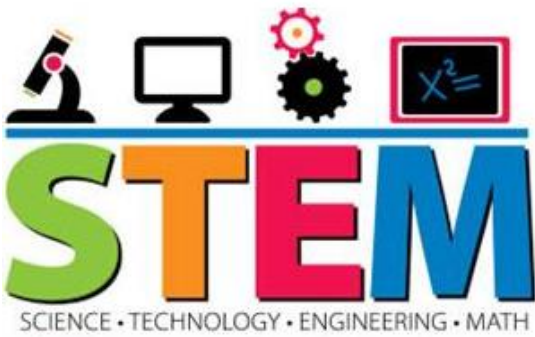

Mr. Delmas A. Dunn Sr.
Museum Director

SUMMER CAMP FACT SHEET

The ultimate goal of our summer program is to encourage middle and high school students to take an interest in STEM subjects. This should be beneficial to them when they enter the job market, and in turn it will benefit the greater economy. It is a simple definition with a straight forward goal. Our goal is to raise \$10,000 and we appreciate your efforts in helping us meet that goal.

Through hands-on activities, mentoring, presentations, and behind-the-scenes field trips, students will discover the world of technology and engineering. The 2018 Summer Camp includes the following programs;

- Introduction to Radio Control Model Airplanes, Quad-Copters, Helicopters, and Model Rockets
- Introduction to Simulations and Demonstrations in Civil Engineering
- Introduction to Biomedical Engineering
- As a special feature, we're bringing back a program focused specifically on Aeronautics where your child will be able to actually fly an airplane! Introduction to Airplane Flight Training (Fly a single engine aircraft with a flight instructor).

When you sponsor a student, you can expect a few things in return. Based on your donation amount, you will receive a sponsorship package according to your level of contribution. Sponsorship Package Levels are listed below:

SPONSORSHIP PACKAGE LEVELS

Bronze (L1.)

During the end of camp, we have every student write a personal letter to their Sponsor(s) as a thank you and to share some of their camp experience.

Silver (L2.)

A Framed Picture of the Summer Camp Students to display on your wall, a valuable marketing tool as well.

Gold (L3.)

A 2017 TAAHM STEM/ Flight Training Summer Camp Calendar.

Platinum (L4.)

We will reserve for you advertising space in our 2018 Magazine to include your business picture, company logo plus a 250 word write up.

Titanium (L5.)

Your name and company logo featured on our website under sponsor page.

We are so grateful for our sponsors, whose support helps TAAHM/STEM/Flight Training Summer Camp Program grow and reach more students each year. Any support offered will help and enrich our ability to teach students about the new opportunities available in the fields of science, technology, engineering and mathematics and prepare them for a future in these fields. Thank You! We appreciate any monetary donations you can give to us.
